NAME: _____

SCHOOL: _____

Mystery Rock

Observations

1) Make a sketch of one of the rocks (Use the magnifying glass to see more details)

2) List 3 things that **YOU** think are interesting about this rock.

   A)

   B)

   C)

Predictions (hint: Use your observations to make guesses)

1) What do you think this rock looks like inside? (How can we find out?)

2) Where did this rock come from? (Just take a guess).

3) What can we do to find out more about this rock?
